<<长期监护基础技能>>

内容概要

This new, concise, streamlined textbook addresses all OBRA-mandated responsibilities for nursing assistants working in long-term care facilities. Written by the authors of Mosby's Textbook for Long-Term Care Assistants, the new book includes only content mandated by OBRA or material that is essential to understanding OBRA content - making it ideal for shorter courses. The full-color, extensively illustrated presentation is designed to engage learners of all levels and help them quickly master over 60 procedures. Material is clearly written at a basic reading level that makes concepts easy to understand.
