<<儿童与成人牙科学>>

内容概要

One of the most successful textbooks in pediatric dentistry, this expert resource provides superior, comprehensive coverage of oral care for infants, children, teenagers, and medically compromised individuals. Thoroughly revised material offers the most up-to-date diagnostic and treatment recommendations based on current research, literature, and clinical experience. Now in its 8th edition, this classic text continues to offer in-depth coverage of all areas relevant to the contemporary science and practice of pediatric dentistry.

Discussions of theories related to molecular biology of the eruption of teeth explain problems related to dental eruption and insight into future methods for their resolution. Incorporates the American Cleft Palate - Craniofacial Association guidelines for the most recent advances in treatment of cleft lip and palate. Follows academy-approved guidelines for the use of anesthetics in the treatment of the child patient as well as outpatient vs. in-patient procedures. Provides an overview of practice management including patient scheduling, insurance, and third party plans. Includes dentists' guide for documenting and reporting child abuse and neglect.

Provides valuable information on cavity varnish, mercury toxicity, and glass ionomer cements. Provides indications for the use of implants to replace teeth (congenitally missing or lost as a result of trauma) in pediatric patients. An updated chapter on nutrition and health shows how food choices and patterns of eating initiated in childhood affect oral health and overall well-being at every stage of life. An increased emphasis on the genetic influence of root resorption associated with orthodontic treatment explores this hot topic. Coverage of new restorative materials examines their use in everyday clinical restorative practice. New coverage of tooth whitening for children and its indications responds to the growing popularity of cosmetic tooth whitening for people of all ages. An updated radiography chapter provides thorough information on digital radiography in children's dentistry. Increased emphasis on Early Childhood Caries and the Alternative Restorative Technique (ART) - a technique used to restore defective or carious teeth with minimal cavity preparation followed by placement of a fluoride-releasing material - reflects the American Academy of Pediatric Dentistry's position on ART. The chapter on anxiety control and pain/analgesics includes specific dosage recommendations for managing anxious or fearful patients. The updated pharmacologic management chapter includes the latest information on sedation techniques in children. The updated trauma chapter includes new splinting recommendations for root fractures and the new Titanium Trauma Splint, cross-referenced to the International Association of Dental Traumatology Diagnostic and Treatment Guidelines, and categories for treatment of avulsed teeth. A new section on the dental management of patients with sickle cell anemia offers the most current information for treating children with disabilities as well as medically compromised patients. Revised illustrations help readers see techniques in a modern dental office setting. 作者简介： Ralph E McDonald, DDS, MS, LLD; David R Avery, DDS, MSD; and Jeffrey A. Dean

书籍目录

1 Examination of the Mouth and Other Relevant Structures RALPH E. McDONALD, DAVID R. AVERY, AND JEFFREY A. DEAN
 2 Child Abuse and Neglect ROBERTA A. HIBBARD AND BRIAN J. SANDERS
 3 Nonpharmacologic Management of Children's Behaviors GERALD Z. WRIGHT
 4 Development and Morphology of the Primary Teeth RALPH E. McDONALD AND DAVID R. AVERY
 5 Radiographic Techniques DALE A. MILES AND EDWIN T. PARKS
 6 Clinical Genetics for the Dental Practitioner JAMES K. HARTSFIELD, Jr. AND DAVID BIXLER
 7 Acquired and Developmental Disturbances of the Teeth and Associated Oral Structures, 103 RALPH E. McDONALD, DAVID R. AVERY, AND JAMES K. HARTSFIELD, Jr.
 8 Tumors of the Oral Soft Tissues and Cysts and Tumors of the Bone, 148 JOHN S. McDONALD
 9 Eruption of the Teeth: Local, Systemic, and Congenital Factors That Influence the Process RALPH E. McDONALD, DAVID R. AVERY, AND JEFFREY A. DEAN
 10 Dental Caries in the Child and Adolescent RALPH E. McDONALD, DAVID R. AVERY, AND GEORGE K. STOOKEY
 11 Mechanical and Chemotherapeutic Home Oral Hygiene, 236 JEFFREY A. DEAN AND CHRISTOPHER V. HUGHES
 12 Nutritional Considerations for the Pediatric Dental Patient JAMES L. McDONALD, Jr.
 13 Local Anesthesia and Pain Control for the Child and Adolescent RALPH E. McDONALD, DAVID R. AVERY, AND JEFFREY A. DEAN
 14 Pharmacologic Management of Patient Behavior MURRAY DOCK AND ROBERT L. CREEDON
 15 Hospital Dental Services for Children and the Use of General Anesthesia JAMES A. WEDDELL AND JAMES E. JONES
 16 Dental Materials B. KEITH MOORE AND DAVID R. AVERY
 17 Pit and Fissure Sealants and Preventive Resin Restorations BRIAN J. SANDERS, ROBERT J. FEIGAL, AND DAVID R. AVERY
 18 Restorative Dentistry RALPH E. McDONALD AND DAVID R. AVERY
 19 Treatment of Deep Caries, Vital Pulp Exposure, and Pulpless Teeth RALPH E. McDONALD, DAVID R. AVERY, AND JEFFREY A. DEAN
 20 Gingivitis and Periodontal Disease RALPH E. McDONALD, DAVID R. AVERY, AND JAMES A. WEDDELL
 21 Management of Trauma to the Teeth and Supporting Tissues RALPH E. McDONALD, DAVID R. AVERY, AND JEFFREY A. DEAN
 22 Prosthodontic Treatment of the Adolescent Patient CHARLES J. GOODACRE, ROBERT J. CRONIN, Jr., AND DAVID T. BROWN
 23 Dental Problems of Children with Disabilities JAMES A. WEDDELL, BRIAN J. SANDERS, AND JAMES E. JONES
