<<微生物学Microbiology>>

内容概要

Students and faculty alike have attested to the extraordinary success rate of the Lippincott's Illustrated Reviews--the unparalleled review texts that clarify the essentials students need to know for the Boards through an easy-to-use outline format and illustration program. Now, this series has been expanded to include a complete and current review of microbiology. Designed and edited by top educators, the book helps the student tie together the visual and cognitive elements of learning for superior recognition and recall. More than 600 pictures and diagrams, carefully crafted to complement and amplify the text, are completely integrated with the text. Board-type questions, with detailed explanations of the answers, are included with each chapter. A series of illustrated case studies is also included.

<<微生物学Microbiology>>

书籍目录

Unit I The Microbial World Chapter 1 Introduction to Microbiology Chapter 2 Normal Flora Chapter 3 Pathogenicity of Microorganisms Chapter 4 Diagnostic Microbiology Chapter 5 Vaccines and Antibiotics
Unit II Immunology for Microbiology Chapter 6 The Innate Immune System Chapter 7 T Cells and Cell-mediated Immunity Chapter 8 B Cells and Humoral Immunity Unit III Bacteria Chapter 9 Bacterial Structure, Growth, and Metabolism Chapter 10 Bacterial Genetics Chapter 11 Staphylococci Chapter 12 Streptococci Chapter 13 Facultative and Aerobic Gram-positive Rods Chapter 14 Neisseriae Chapter 15 Enteric Gram-negative Rods Chapter 16 Other Gram-negative Rods Chapter 17 Clostridia and Other Anaerobic Rods Chapter 18 Spirochetes Chapter 19 Mycoplasma Chapter 20 Chlamydiae Chapter 21 Mycobacteria and Actinomycetes Chapter 22 Rickettsiae Unit IV Fungi and Parasites Chapter 23 Fungi Chapter 24 Protozoa Chapter 25 Helminths Unit V Viruses Chapter 26 Introduction to the Viruses Chapter 27 Non-enveloped DNA Viruses Chapter 28 Enveloped DNA Viruses Chapter 29 Hepatitis B and Hepatitis D (Delta) Viruses Chapter 30 Positive-strand RNA Viruses Chapter 31 Retroviruses and AIDS Chapter 32 Negative-strand RNA Viruses Chapter 33 Double-stranded RNA Viruses: the Reoviridae Chapter 34 Unconventional Infectious Agents Unit VI Clinical Microbiology Review Chapter 35 Summary of Clinically Important Microorganisms Chapter 36 Clinical Bacteriology at a Glance Chapter 37 Microbiology Made Manageable Chapter 38 Illustrated Case Studies Index
