<<孕期糖尿病学 (第7卷)>>

内容概要

European Practice in Gynaecology and Obstetrics is a series of books published under the auspices of EBCOG. In each volume, the specialist will find a review of basic science, recent concepts in pathophysiology, clinical aspects, imaging, treatment and unresolved problems or controversies, and up-to-date references. Series concentrates on important and changing areas of clinical practice. Each volume editor is a leading European expert in the field. Contributors are drawn from a wide range of European countries. All volumes include a review of basic science and pathophysiology, as well as clinical aspects, treatment, unresolved problems. Current references are included for each chapter. Multiple choice questions are provided at the end of each chapter.
