<<Photoshop通道与遮罩宝典 Ph>>

内容概要

If you're using Photoshop without working with channels and masks, you're missing out on some of the most powerful and creative features Photoshop CS3 has to offer. Let this comprehensive reference teach you to use these valuable tools the way professionals do. Create dazzling composites, speed your workflow, get awesome color—it's all here and more with step-by-step instructions, techniques, and examples. If you want to tap the full potential of Photoshop channels and masks, this striking full-color Bible is the book you need to succeed. Harness channels and masks for faster workflow； Unravel the secrets of creating, mixing, and converting digital color； Add lighting effects, 3D, and other channel pyrotechnics； Composite layer content with advanced blending； Reveal, conceal, and refine your images with layer masks； Combine selections from single and multiple documents； Learn to posterize, create textures, correct faded images, and more； Use type masks to add an artist's sparkle to the text.作者简介： Stephen Romaniello is an artist, educator, and writer. He began his career in graphics in 1980 as a production artist and typesetter; soon he was promoted to designer and then art director. In 1982, he became a partner at Armory Park Design Group. Three years later he founded Congress Street Design, a full-service design firm. In 1987, at the beginning of the digital revolution in graphics technology, he purchased his first computer. Romaniello accepted a faculty position in 1990 at the Advertising Art program at Pima Community College in Tucson, Arizona, with the intention of developing a state-of-the-art digital graphics program. He served as department chair of the renamed Digital Arts Department for eight years.Romaniello has developed curriculum and training materials for many of the mainstream graphics programs, and has offered seminars at the Maine Photographic Workshops, the League for Innovation, and National Business Media. A certified instructor in Adobe Photoshop he currently teaches digital art courses at Pima Community College. He is the coauthor of Mastering Adobe GoLive 4 with Molly Holtschlag and the author of Mastering Photoshop 6, Photoshop 7 Savvy, Photoshop CS Savvy, and Photoshop CS2 Savvy, all published by Sybex. He is also the author of The Perfect Digital Portfolio, published by Sterling and The Photoshop Visual Encyclopedia published by Wiley. His column, “The Digital Eye,” appears in Digital Graphics magazine. Romaniello is the founder of Gorilla Geeks, a company that offers onsite training and consulting throughout the country. His home and studio are in Tucson, Arizona.
