Divided into three comprehensive parts—Securities Lending, Bond Financing via the Repo Market, and Equity Financing Alternatives to Securities Lending—this book covers a wide range of securities finance issues, including alternative routes to the securities lending market, evaluating risks in securities lending transactions, U.S. and European repo markets, dollar rolls and their impact on MBS valuation and strategies, derivatives for financing equity positions and equity repos, and more. Filled with in-depth insight and expert advice, *Securities Finance* contains the information readers need to succeed in this rapidly expanding market.
