

<<Lifespan Development>>

图书基本信息

书名：<<Lifespan Development and the Brain人类发展与大脑>>

13位ISBN编号：9780521844949

10位ISBN编号：0521844940

出版时间：2006-6

出版时间：Cambridge Univ Pr

作者：Baltes, Paul B. (EDT)/ Reuter-lorenz, Patricia (EDT)/ Rosler, Frank (EDT)

页数：427

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## <<Lifespan Development>>

### 内容概要

The book focuses on the developmental analysis of brain-culture-environment dynamics and argues that this dynamic is interactive and reciprocal. Brain and culture co-determine each other. As a whole, this book refutes any unidirectional conception of the brain-culture dynamic. Each is influenced by and modifies the other. To capture the ubiquitous reach and significance of the mutually dependent brain-culture system, the metaphor of biocultural co-constructivism is invoked. Distinguished researchers from cognitive neuroscience, cognitive psychology, and developmental psychology review the evidence in their respective fields. A special focus of the book is its coverage of the entire human lifespan from infancy to old age.

## <<Lifespan Development>>

### 作者简介

Paul B. Baltes is noted for his theoretical and empirical work in developmental psychology and the interdisciplinary study of human aging. Aside from multiple honorary doctorates, and election to academies, he has received numerous awards including the International Psychology Award of the American Psychological Association, the Lifetime Achievement Award of the German Psychological Society, and the Aristotle Prize of the European Federation of Psychological Associations.

<<Lifespan Development>>

书籍目录

List of Contributors  
Preface and Acknowledgments  
PART ONE. SETTING THE STAGE ACROSS THE AGES OF THE LIFESPAN  
1. Prologue: Biocultural Co-Constructivism as a Theoretical Metascript  
2. Biocultural Co-Construction of Lifespan Development  
Shu-Chen Li  
PART TWO. NEURONAL PLASTICITY AND BIOCULTURAL CO-CONSTRUCTION: MICROSTRUCTURE MEETS THE EXPERIENTIAL ENVIRONMENT  
3. Neurobehavioral Development in the Context of Biocultural Co-Constructivism  
4. Adult Neurogenesis  
PART THREE. NEURONAL PLASTICITY AND BIOCULTURAL CO-CONSTRUCTION: ATYPICAL BRAIN ARCHITECTURES  
5. Sensory Input-Based Adaptation and Brain Architecture  
6. Blindness: A Source and Case of Neuronal Plasticity  
PART FOUR. BIOCULTURAL CO-CONSTRUCTION: SPECIFIC FUNCTIONS AND DOMAINS  
7. Language Acquisition: Biological Versus Cultural Implications for Brain Structure  
8. Reading, Writing, and Arithmetic in the Brain: Neural Specialization for Acquired Functions  
9. Emotion, Learning, and the Brain: From Classical Conditioning to Cultural Bias  
10. The Musical Mind: Neural Tuning and the Aesthetic Experience  
PART FIVE. PLASTICITY AND BIOCULTURAL CO-CONSTRUCTION IN LATER LIFE  
11. Influences of Biological and Self-Initiated Factors on Brain and Cognition in Adulthood and Aging  
12. The Aging Mind and Brain: Implications of Enduring Plasticity for Behavioral and Cultural Change  
PART SIX. BIOCULTURAL CO-CONSTRUCTION: FROM MICRO- TO MACROENVIRONMENTS IN LARGER CULTURAL CONTEXTS  
13. Characteristics of Illiterate and Literate Cognitive Processing: Implications of Brain-Behavior Co-Constructivism  
14. The Influence of Work and Occupation on Brain Development  
15. The Influence of Organized Violence and Terror on Brain and Mind: A Co-Constructive Perspective  
16. Co-Constructing Human Engineering Technologies in Old Age: Lifespan Psychology as a Conceptual Foundation  
PART SEVEN. EPILOGUE  
17. Letters on Nature and Nurture  
Author Index  
Subject Index
