<<美容手术图谱Atlas of Cosme>>

内容概要

Leading experts present authoritative, richly illustrated, hands-on guidance on performing a broad range of cosmetic surgical procedures. They explore everything from facial techniques involving laser resurfacing, chemical peeling, blepharoplasty, and face lifts to hair transplantation, hair removal, laser treatment of brown and red lesions, and liposuction. An abundance of high-quality clinical photographs, combined with crisp 2-color illustrations, demonstrate how to proceed and what outcomes to expect.
