<<慢性创伤护理>>

内容概要

This resource is designed to help both students and professionals take a self-directed, problem-solving approach in finding answers to problems encountered in daily practice. Case studies present a clinical wound care situation and encourage readers to research the solution using resources from specific chapters in the book, the internet, and other references. The research skills featured in this valuable learning tool will be used time and time again by wound care professionals seeking answers to tough cases and striving to provide superior patient care.
