<<Microsoft Windows PowerShell Po>>

内容概要

Learn Microsoft Windows PowerShell one step at a time with practical, hands-on instruction from Microsoft's leading scripting trainer, Ed Wilson. Work at your own pace and build practical system administration skills as you learn how to use Windows PowerShell to administer Microsoft Windows, Microsoft Exchange, and other Microsoft technologies. You will learn how to write your first Windows PowerShell commands and scripts to automate setup, deployment, and administration. This guide features self-paced learning labs and a companion CD that features a complete eBook, plus dozens of adaptable sample scripts you can use on the job. 作者简介: Ed Wilson is a senior consultant at Microsoft Corporation and a well-known scripting expert. He is a Microsoft Certified Trainer who delivers popular scripting, networking, and administration workshops to Microsoft employees and customers worldwide. He's written several books on Windows scripting, including Microsoft Windows Scripting Self-Paced Learning Guide and Microsoft VBScript Step by Step. Ed holds more than 20 industry certifications, including MCSE and CISSR.

<<Microsoft Windows Po>>
