内容概要

The guide that shows you what other travel books only tell you!

Rich in history and tradition, the island of Singapore has become the gem of Southeast Asia and DK's Eyewitness Guide: Singapore will show you how to get around one of the world's best economic miracles. Visit the shops and cafes on Trengganu Street in Chinatown, the world famous Raffles Hotel, the sculpture park in Fort Canning Park, and the ethnic enclave of Kampong Glam. Four guided walks take you through Mount Faber Park, the back streets of old Geylang and Katong, the beaches of East Coast Park, and the colonial houses in Ridley Park. With over 750 photographs, street-by-street maps, and unique cutaway illustrations there is no need to purchase any other guide.
