## <<新潮室内装饰THE CUTTING E>>

### 内容概要

Author Vivian Peritts leads the way in taking the art of scrapbooking—using punches and decorative paper edgers—to new levels by applying the same principles to upscale home decorating projects. This book will open the creative door and let out all the secrets of the great decorating projects that can be accomplished using supplies a crafter already has on hand. Step-by-step photography shows crafters how to use scrapbooking tools to make an Asian lantern, create a personalized border for a teenager's room, decorate furniture with an inlaid wood pattern, achieve a tin ceiling tile look, and complete 30 more exciting projects for the home. Peritts is a board member of the Society of Craft Designers and a regular guest on many craft television shows, including The Carol Duvall Show. She is also the author of *Candle Creations: Creative Ideas for Embellishment*. • More than 30 exciting home décor projects made with scrapbooking tools using common craft supplies • Detailed directions and step-by-step photography guide the reader • Creative home décor that is truly on the cutting edge

<<新潮室内装饰THE CUTTING E>>

书籍目录
