内容概要

China is a collection of photographs that portray the unique combination of China's natural landscape and historical civilisation. This book presents stunning portraits of 44 of the most representative natural and cultural attractions in China, including 28 notable World Heritage Sites. Created by dozens of the country's top photographers, the 238 wonderful pictures will take you on an exciting journey to the most spectacular natural beauties of China, where you can explore the mysterious traces of the ancient Chinese tradition. Open the 12 gatefolds to marvel at the splendour of Nature and the greatness of civilisation. Some photographs provide close-up views to show the finer details of colour and contour. Filled with fascinating pictures and descriptions, the 10-page index at the back highlights the traditional and geographical significance of the sights, adding more cultural and historical interest to the book. The Chinese edition and French edition of China are published by CHINA YOUTH PRESS and CITADELLES&MAZENOD respectively at the same time. The historic and cultural monuments covered here are not only the pride of the Chinese people, but wonders for the whole world. A great gift idea for anyone who would love to experience the natural and cultural beauty of this 5,000-year-old civilisation. A thrilling adventure that will entertain and inspire.
