<<English Made Easy: A>>

内容概要

This complete, graded home study scheme is designed to help practise and reinforce the essential English skills that children learn in school. It supports the National Literary Strategy and is closely tied to the English specified for each year group by the National Curriculum, the Scotland Curriculum Framework and the Ireland Primary Curriculum.

The series includes four workbooks for pre-school children, 6 workbooks for Key Stage 1, six workbooks for Key Stage 2, ages 7-8 and 8-9, and a further six for Key Stage 2 ages 9-10 and 10-11.

The series supports classroom learning and aims to help prepare children for National Testing, and all have been compiled and tested by a team of early-learning, spelling and grammar experts to increase a child's confidence and success at school. This book is for Key Stage 2 ages 7-8.--Sandra Richards --This text refers to an out of print or unavailable edition of this title.
