The story of Jack Sparrow starts here! Teenage stowaway Jack Sparrow has assembled a motley crew, and they're on the quest of a lifetime. Their goal: to locate and procure the legendary Sword of Cortés, which will grant them unimaginable power. But will this ragtag team of adventurers survive their first mission, or will they succumb to the power of the sea, vicious pirates, and ancient curses?

Pirates of the Caribbean: Jack Sparrow is a series for young readers of nine to twelve years written by Rob Kidd. The series are prequels to the Pirates of the Caribbean films. The series details Jack Sparrow's teen years prior to the events of the movies.

Release Date: June 1, 2006 (USA) In the beginning Jack is in a Tortuga tavern, looking for his satchel, which has been stolen. He thinks he has found it under the seat of a notorious pirate Torrents, who catches Jack stealing. In the ensuing bar fight, Jack slips out, only to find out that the satchel isn't his. This one contains, among various personal items, the magical sheath for the Sword of Cortés. The bar attendant, Arabella, who pulled Jack out of the fight, makes this discovery with him. They plan together to a ship to go look for the storied Sword of Cortés, and reunite it with its sheath. Arabella directs Jack to an abandoned ship, the Barnacle. Before they leave Tortuga, a young boy, Fitzwilliam P. Dalton III, insists on joining them for their quest. The three sail for many days and come upon an island, where they meet two thirteen year old boys, Jean and Tumen, and their cat sister Constance. Jack remarks about The Sword of Cortés, and Jean and Tumen lead the crew to a 'dead' city on the cursed island. Inside the main building of the city, the crew find the skeleton of the city's king, Stone-Eyed Sam, who is said to be holding the Sword, but it is missing. Jack pockets the fabled stone eye of the now-dead former pirate king as a souvenir. The crew find left footprints on the ground, and soon realize that the notorious pirate, Left Foot Louis, has it. They all go rushing to the Barnacle, when they suddenly come face to face with Torrents, a crew member of the feared Davy Jones's crew. They all battle on the beach, for who would get the Sword of Cortés's sheath, and Jack eventually defeats Torrents (look out for a reference to Ben Franklin!) and escape on the Barnacle. It is revealed in this book that Jack knew Benjamin Franklin, and taught him the secrets of electricity.
