<<Yellowstone National>>

内容概要

Wild, spectacular Yellowstone thrills visitors with gushing geysers and free-roaming wildlife. Grand Teton entices with jagged peaks and glacial lakes. Packed with information for everyone from families with small children to hardcore outdoor adventurers, this guide takes you there. 作者简介: Bradley Mayhew, Bradley started traveling in China, Tibet, and northern Pakistan while studying Chinese at Oxford University. Since then he's written 11 OF CO—authored Lonely Planet guides to South—West China, Shanghai, Tibet, Mongolia, and Central Asia. and has lectured to the Royal Geographical Society on Central Asia. A hopeless nomad, he now lives in Billings, Montana, from where he regularly tries in vain to get a direct flight connection to Asia.
