内容概要

Extract: I wrote this book to bring together in one place all the best fashion, beauty and lifestyle websites that I've discovered, shopped from and enjoyed using. To make reading about them relaxing and fun with the result that all you have to do is to dip in and out of it when you're looking for something and then just click to shop. You can see immediately who will deliver worldwide, who offers express delivery and who will gift-wrap your choice and send it out for you. I've also awarded gold stars to my all time favourites, some of whom you'll almost certainly have heard of and others you probably won't have. They've all been tried and tested by me and they all deserve their stars, trust me. They're the best of the best. However, the aim of this book is not just to take you straight to the ultimate online stores so you don't have to search any more, but also to give you a snap-shot of each website so you can quickly decide whether or not you want to pay it a visit. With this book you can shop from just about anywhere in the world and take delivery anywhere in the world. The World Wide Web has made the globe a much, much smaller place, so for a little entertainment and a great deal of temptation just turn the page and read on. You'll be amazed at what you can find online...
