内容概要

PreSchool-Grade 3-This wordless picture book traces the journey of a rogue balloon as it is carried along from scene to scene. This format is similar to that of Jean Marzollo's "I Spy" books (Scholastic) and Martin Handford's "Where's Waldo" series (Candlewick), as children are challenged to find the tiny balloon, as well as other objects, in action-filled pictures. The aerial views are panoramic and the colors are breathtaking. Depicting many different parts of the world and many unique landscapes, the illustrations are imaginative and elaborate, and brimming with hundreds of captivating miniature details. At closer scrutiny, observers will see that Dematons combines images from various time periods: a truck is loaded with tomatoes while a short distance away, marauding warriors on horseback pillage a walled town. An escaped convict creeps from page to page, while a man wearing white robes and a turban travels on a magic carpet. With the artwork providing a springboard, opportunities for picture-inspired storytelling are unlimited. This stunning offering has broad appeal.
