### 内容概要

The didactic concept of this book, grounded on years of teaching experience, considers all aspects of training: - it allows easy studying through clear yet comprehensive coverage, - easy memorizing by a well-structured presentation, and - easy application through a clear distinction between symptoms and diagnosis, tabular presentation of major symptoms, and extensive indexing. A role model for a pocket textbook designed for the study of the field of ophthalmology, extensively illustrated with high-quality color photographs and clear explanatory drawings.

书籍目录

1 The Ophthalmic Examination (Gabriele E. Lang, Gerhard K. Lang) 1.1 Equipment 1.2 History 1.3 Visual Acuity 1.4 Ocular Motility 1.5 Binocular Alignment 1.6 Examination of the Eyelids and Nasolacrimal Duct 1.7 Examination of the Conjunctiva 1.8 Examination of the Cornea 1.9 Examination of the Anterior Chamber 1.10 Examination of the Lens 1.11 Ophthalmoscopy 1.12 Confrontation Field Testing 1.13 Measurement of Intraocular Pressure 1.14 Eyedrops, Ointment, and Bandages 2 The Eyelids (Peter Wagner, Gerhard K. Lang) 2.1 Basic Knowledge 2.2 Examination Methods 2.3 Developmental Anomalies 2.3.1 Coloboma ... 20 2.3.2 Epicanthal Folds 2.3.3 Blepharophimosis 2.3.4 Ankyloblepharon 2.4 Deformities 2.4.1 Ptosis 2.4.2 Entropion 2.4.3 Ectropion 2.4.4 Trichiasis 2.4.5 Blepharospasm 2.5 Disorders of the Skin and Margin of the Eyelid 2.5.1 Contact Eczema 2.5.2 Edema 2.5.3 Seborrheic Blepharitis 2.5.4 Herpes Simplex of the Eyelids 2.5.5 Herpes Zoster Ophthalmicus 2.5.6 Eyelid Abscess 2.5.7 Tick Infestation of the Eyelids 2.5.8 Louse Infestation of the Eyelids 2.6 Disorders of the Eyelid Glands 2.6.1 Hordeolum 2.6.2 Chalazion 2.7 Tumors 2.7.1 Benign Tumors 2.7.1.1 Ductal Cysts 2.7.1.2 Xanthelasma 2.7.1.3 Molluscum Contagiosum 2.7.1.4 Cutaneous Horn 2.7.1.5 Keratoacanthoma 2.7.1.6 Hemangioma 2.7.1.7 Neurofibromatosis (Recklinghausen's Disease) 2.7.2 Malignant Tumors 2.7.2.1 Basal Cell Carcinoma 2.7.2.2 Squamous Cell Carcinoma 2.7.2.3 Adenocarcinoma 3 Lacrimal System (Peter Wagner, Gerhard K. Lang) 3.1 Basic Knowledge 3.2 Examination Methods 3.2.1 Evaluation of Tear Formation 3.2.2 Evaluation of Tear Drainage 3.3 Disorders of the Lower Lacrimal System 3.3.1 Dacryocystitis 3.3.1.1 Acute Dacryocystitis 3.3.1.2 Chronic Dacryocystitis 3.3.1.3 Neonatal Dacryocystitis 3.3.2 Canaliculitis 3.3.3 Tumors of the Lacrimal Sac 3.4 Lacrimal System Dysfunction 3.4.1 Keratoconjunctivitis Sicca ..... 4 Conjunctiva 5 Cornea 6 Sclera 7 Lens 8 Uveal Tract (Vascular Pigmented Layer) 9 Pupil 10 Glaucoma 11 Vitreous Body 12 Retina 13 Optic Nerve 14 Visual Pathway 15 Orbital Cavity 16 Optics and Refractive Errors 17 Ocular Motility and Strabismus 18 Ocular Trauma 19 Cardinal Symptoms Index
