

<<共进化模糊建模Coevolut>>

图书基本信息

书名：<<共进化模糊建模Coevolutionary Fuzzy Modeling>>

13位ISBN编号：9783540229940

10位ISBN编号：3540229949

出版时间：2004-11

出版时间：Oversea Publishing House

作者：Pena Reyes, Carlos Andres; Pena-Reyes, C. a.; Pea-Reyes, Carlos Andrs

页数：129

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<共进化模糊建模Coevolut>>

内容概要

Building on fuzzy logic and evolutionary computing, this book introduces fuzzy cooperative coevolution as a novel approach to systems design, conducive to explaining human decision process. Fuzzy cooperative coevolution is a methodology for constructing systems able to accurately predict the outcome of a decision-making process, while providing an understandable explanation of the underlying reasoning. The central contribution of this work is the use of an advanced evolutionary technique, cooperative coevolution, for dealing with the simultaneous design of connective and operational parameters. Cooperative coevolution overcomes several limitations exhibited by other standard evolutionary approaches. The applicability of fuzzy cooperative coevolution is validated by modeling the decision processes of three real-world problems, an iris data benchmark problem and two problems from breast cancer diagnosis.
