<< Advances in Informat>>

This book constitutes the refereed proceedings of the Third International Conference on Advances in Information Systems, ADVIS 2004, held in Izmir, Turkey in October 2004. The 61 revised full papers presented were carefully reviewed and selected from 203 submissions. The papers are organized in topical sections on databases and datawarehouses, data mining and knowledge discovery, Web information systems development, information systems development and management, information retrieval, parallel and distributed data processing, multimedia information systems, information privacy and security, evolutionary and knowledge-based systems, software engineering and business process modeling, and network management.

<<Advances in Informat>>

Databases and Data Warehouses Temporality in Databases On Uncertainty and Data-Warehouse Design A Data Warehouse Engineering Process Aggregation and Analysis of Spatial Data by Means of Materialized Aggregation Tree An Object-Oriented Framework for Reconciliation and Extraction in Heterogeneous Data Federations On Optimising Data Access Via Materialised Methods in Object-Oriented Systems Some Modifications of Bucket-Based Algorithms for Query Rewriting Using ViewsData Mining and Knowledge Discovery A Data Mining Application on Air Temperature Database Incremental Association Rule Mining Using Materialized Data Mining Views Outlier Effects on Databases Finding Maximal Similar Paths Between XML Documents Using Sequential PatternsWeb Information Systems Development Using Ontologies for Collaborative Information Management: Some Challenges and Ideas The Construction of Domain Ontology and Its Application to Document Retrieval WetDL: A Web Information Extraction Language Towards Building Knowledge Centres on the World Wide Web Navigation Modelling from a User Services Oriented Approach Kreios: Towards Semantic Interoperable Systems Adaptive Architecture for Web Server SurvivabilityInformation Systems Development and Management Integration and Maintenance of Heterogeneous Applications and Data Structures A Component Language for Hybrid Solver Cooperations Non-interleaved Quadtree Node Codification Parameterized Formatting of an XML Document by XSL Rules A Middleware Approach to Storing and Querying XML Documents in Relational DatabasesInformation Retrieval Parallel and Distrbuted Data ProcessingMultimedia Information SystemsInformation Privacy and SecurityEvolutionary and Knowledge-Based SystemsSoftware Engineering and Business Process ModelsNetwork ManagementAuthor Index
