

<<效用计算/会议录 Utility Comp>>

图书基本信息

书名：<<效用计算/会议录 Utility Computing>>

13位ISBN编号：9783540236313

10位ISBN编号：3540236317

出版时间：北京燕山出版社

作者：Sahai, A.; Sahai, Akhil; Felix, Wu

页数：270

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## 内容概要

This book constitutes the refereed proceedings of the 15th IFIP/IEEE International Workshop on Distributed Systems, Operations and Management, DSOM 2004, held in Davis, CA, USA in November 2004. The 21 revised full papers and 4 short papers presented were carefully reviewed and selected from 110 submissions. The papers are organized in topical sections on management architecture; service level management; policy management; automated management; analysis and reasoning; trust and security; and implementation, instrumentation, and experience.

书籍目录

Management Architecture Requirements on Quality Specification Posed by Service Orientation Automating the Provisioning of Application Services with the BPEL4WS Workflow Language HiFi+: A Monitoring Virtual Machine for Autonomic Distributed Management SLA Based Management Defining Reusable Business-Level QoS Policies for DiffServ Policy Driven Business Performance Management Business Driven Prioritization of Service Incidents Policy Based Management A Case-Based Reasoning Approach for Automated Management in Policy-Based Networks An Analysis Method for the Improvement of Reliability and Performance in Policy-Based Management Systems Policy-Based Resource Assignment in Utility Computing Environments Automated Management Failure Recovery in Distributed Environments with Advance Reservation Management Systems Autonomous Management of Clustered Server Systems Using JINI Event-Driven Management Automation in the ALBM Cluster System Analysis and Reasoning A Formal Validation Model for the Netconf Protocol Using Object-Oriented Constraint Satisfaction for Automated Configuration Generation. Petrie, Lyle Ramshaw, Problem Determination Using Dependency Graphs and Run-Time Behavior Models Trust and Security Role-Based Access Control for XML Enabled Management Gateways Spotting Intrusion Scenarios from Firewall Logs Through a Case-Based Reasoning Approach A Reputation Management and Selection Advisor Schemes for Peer-to-Peer Systems Implementation, Instrumentation, Experience Using Process Restarts to Improve Dynamic Provisioning Server Support Approach to Zero Configuration In-Home Networking Rule-Based CIM Query Facility for Dependency Resolution Short Papers Author Index
