

<<Computational Intell>>

图书基本信息

书名：<<Computational Intelligence and Bioinspired Systems计算智能与生物激励的系统>>

13位ISBN编号：9783540262084

10位ISBN编号：3540262083

出版时间：2005-7

出版时间：北京燕山出版社

作者：Cabestany, Joan; Prieto, Alberto; Sandoval, Francisco

页数：1260

<<Computational Intell>>

内容概要

This book constitutes the refereed proceedings of the 8th International Workshop on Artificial Neural Networks, IWANN 2005, held in Vilanova i la Geltrú, Barcelona, Spain in June 2005. The 150 revised papers presented – including the contribution of three invited speakers – were carefully reviewed and selected from 240 submissions for inclusion in the book and address the following topics: mathematical and theoretical methods, evolutionary computation, neurocomputational inspired models, learning and adaptation, radial basic functions structures, self-organizing networks and methods, support vector machines, cellular neural networks, hybrid systems, neuroengineering and hardware implementations, pattern recognition, perception and robotics and applications in a broad variety of fields.

<<Computational Intell>>

书籍目录

Mathematical and Theoretical Methods Evolutionary computation Neurocomputational Inspired Models Learning and Adaptation Radial Basic Functions Structures Self-organizing Networks and Methods Support Vector Machines Cellular Neural Networks Hybrid Systems Neuroengineering and Hardware Implementations Pattern Recognition Perception and Robotics Applications on Data Analysis and Preprocessing Applications on Data Mining Applications on Signal Processing Applications on Image Processing Applications on Forecasting Applications on Independent Component Analysis and Blind Source Separation Applications on Power Systems Other Applications Author Index
