<< Computer Supported C>>

This book constitutes the thoroughly refereed post-proceedings of the 8th International Conference on Computer Supported Cooperative Work in Design, CSCWD 2004, held in Xiamen, China, in September 2004.   The 45 revised full papers presented were carefully reviewed and selected from numerous submissions during at least two rounds of reviewing and improvement. They contain expanded versions of the papers presented at the conference and are organized in topical sections on CSCW techniques and methods, agents and multi-agent systems, ontology and knowledge management, collaborative design and manufacturing, and enterprise collaboration, virtual reality and applications, workflows, and other related approaches and applications.

<<Computer Supported C>>

CSCW Techniques and Methods Vega Information Grid for Collaborative Computing Physical Object Icons Buttons Paradigm with Pen Gesture (PIBG): A New Interaction A Novel Method of QoS Based Resource Management and Trust Based Task Scheduling Learning to Plan the Collaborative Design Process Groupware System Design and the Context Concept Grid Authorization Management Oriented to Large-Scale Collaborative Computing Research on Network Performance Measurement Based on SNMP Concepts, Model and Framework of Cooperative Software Engineering An Algorithm for Cooperative Learning of Bayesian Network Structure from Data Non-violative User Profiling Approach for Website Design hnprovementAgents and Multi-agent Systems Generative Design in an Agent Based Collaborative Design System Similarity Based Agents for Design Semantic Integration in Distributed Multidisciplinary Design Optimization Environments Formal Dialogue and Its Application to Team Formation in Cooperative Design MA_CORBA: A Mobile Agent System Architecture Based on CORBA A Multi-agent Based Method for Handling Exceptions in Computer Supported Cooperative DesignOntology and Knowledge Management CEJ- An Environment for Flexible Definition and Execution of Scientific Publication Processes Methodology of Integrated Knowledge Management in Lifecycle of Product Development Process and Its Implementation Knowledge-Based Cooperative Design Technology of Networked Manufacturing Multi-ontology Based System for Distributed ConfigurationCollaborative Design and Manufacturing, and Enterprise CollaborationVirtual Reality and ApplicationsWorkflowsOther Related Approaches and Applications Author Index
