

## <<Model Driven Archite>>

### 图书基本信息

书名：<<Model Driven Architecture - Foundations and Applications模型驱动的体系结构>>

13位ISBN编号：9783540300267

10位ISBN编号：3540300260

出版时间：2005-12

出版时间：湖北辞书出版社

作者：Hartman, A.; Hartman, Alan; Kreische, David

页数：348

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## <<Model Driven Archite>>

### 内容概要

The LNCS series reports state-of-the-art results in computer science research , development , and education , at a high level and in both printed and electronic form. Enjoying tight cooperation with the R&D community , with numerous individuals , as well as with prestigious organizations and societies , LNCS has grown into the most comprehensive computer science research forum available. The scope of LNCS , including its subseries LNAI , spans the whole range of computer science and information technology including interdisciplinary topics in a variety of application fields. The type of material published traditionally includes. —proceedings ( published in time for the respective conference ) —post-proceedings ( consisting of thoroughly revised final full papers ) —research monographs ( which may be based on outstanding PhD work , research projects , technical reports , etc. ) .

<<Model Driven Archite>>

书籍目录

MDA Development Processes Applying MDA to Voice Applications: An Experience in Building an MDA Tool Chain MDA, Meta-Modelling and Model Transformation: Introducing New Technology into the Defence Industry Using Domain Driven Development for Monitoring Distributed Systems MDA for Embedded and Real-Time Systems Model-Driven Architecture for Hard Real-Time Systems: From Platform Independent Models to Code Model-Driven Performance Analysis of UML Design Models Based on Stochastic Process Algebra MDA Components: A Flexible Way for Implementing the MDA Approach MDA and Component-Based Software Engineering An MDA Approach for Adaptable Components Layered Ontological Modelling for Web Service-Oriented Model-Driven Architecture Model-Driven Development - Hot Spots in Business Information Systems Metamodeling Semantic Anchoring with Model Transformations On Some Properties of Parameterized Model Application A Comparative Study of Metamodel Integration and Interoperability in UML and Web Services Control Flow Analysis of UML 2.0 Sequence Diagrams Designing a Domain-Specific Contract Language: A Metamodeling Approach Making Metamodels Aware of Concrete Syntax Model Transformation XRound: Bidirectional Transformations and Unifications Via a Reversible Template Language Towards General Purpose, High Level, Software Languages Toward Standardised Model to Text Transformations On Relationships Between Query Models Transformations Between UML and OWL-S A Graphical Specification of Model Transformations with Triple Graph Grammars Model Synchronization and Consistency Author Index
