<<Integrated Formal Me>>

内容概要

This book constitutes the refereed proceedings of the 5th International Conference on Integrated Formal Methods, IFM 2005, held in Eindhoven, The Netherlands, in November/December 2005. The 19 revised full papers presented together with 3 invited papers were carefully reviewed and selected from 40 submissions. The papers are organized in topical sections on components, state/event-based verification, system development, applications of B, tool support, non-software domains, semantics, as well as UML and statecharts.

<<Integrated Formal Me>>

书籍目录

Invited Papers A Family of Mathematical Methods for Professional Software Documentation Generating Path
Conditions for Timed Systems Software Model Checking: Searching for Computations in the Abstract or the
Concrete Session: Components Adaptive Techniques for Specification Matching in Embedded Systems A
Comparative Study Session: State/Event-Based Verification State/Event Software Verification for
Branching-Time Specifications Exp.Open 2.0: A Flexible Tool Integrating Partial Order, Compositional, and
On-The-Fly Verification Methods Chunks: Component Verification in CSP||B Session: System Development
Agile Formal Method Engineering An Automated Failure Mode and Effect Analysis Based on High-Level
Design Specification with Behavior Trees Enabling Security Testing from Specification to Code Session:
Applications of B Development of Fault Tolerant Grid Applications Using Distributed B Formal Methods
Meet Domain Specific Languages Synthesizing B Specifications from EB3 Attribute Definitions Session: Tool
Support CZT Support for Z Extensions Embedding the Stable Failures Model of CSP in PVS Model-Based
Prototyping of an Interoperability Protocol for Mobile Ad-Hoc Networks Peder Christian Ncrgaard Session:
Non-software Domains Translating Hardware Process Algebras into Standard Process Algebras: Illustration with
CHP and LOTOS Formalising Interactive Voice Services with SDL Session: Semantics Session: UML and
Statecharts Author Index
