

图书基本信息

书名：<<软件工程中的极限编程与敏捷过程/会议录 LNCS-4044>>

13位ISBN编号：9783540350941

10位ISBN编号：3540350942

出版时间：2006-12

出版时间：湖北辞书出版社

作者：Abrahamsson, Pekka; Abrahamsson, Pekka; Marchesi, Michele

页数：230

内容概要

This book constitutes the refereed proceedings of the 7th International Conference on Extreme Programming and Agile Processes in Software Engineering, XP 2006, held in Oulu, Finland, in June 2006. The 16 revised full papers presented together with 6 experience papers, 12 poster papers and panel summaries were carefully reviewed and selected from 59 submissions. The papers are organized in topical sections on foundation and rationale for agile methods, effects of pair programming, quality in agile software development, issues in large scale agile development, new practices for agile software development, experience papers, posters and demonstrations, and panels.

书籍目录

Foundation and Rationale for Agile Methods A Distributed Cognition Account of Mature XP Teams
Foundations of Agile Decision Making From Agile Mentors and Developers Software Development as a
Collaborative Writing Project Comparative Analysis of Job Satisfaction in Agile and Non-agile Software
Development Teams Effects of Pair Programming Investigating the Impact of Personality Types on
Communication and Collaboration-Viability in Pair Programming-An Empirical Study The Collaborative Nature
of Pair Programming Is External Code Quality Correlated with Programming Experience or Feelgood
Factor?Quality in Agile Software Development Leveraging Code Smell Detection with Inter-smell Relations
Studying the Evolution of Quality Metrics in an Agile/Distributed Project The Effect of Test-Driven Development
on Program Code Issues in Large Scale Agile Development Configuring Hybrid Agile-Traditional Software
Processes Rolling the DICE for Agile Software Projects Agility in the Avionics Software World New Practices for
Agile Software Development Architecture and Design in eXtreme Programming;Introducing “ Developer Stories
” Towards a Framework for Integrating Agile Development and User-Centred Design Security Planning and
Refactoring in Extreme Programming Experience Papers Divide After You Conquer:An Agile Software
Development Practice for Large Projects Augmenting The Agile Planning Toolbox Incorporating Learning and
Expected Cost of Change in Prioritizing Features on Agile ProjectsPosters and DemonstrationsPanelsAuthor
Index
