## 内容概要

This book constitutes the refereed proceedings of the 8th International Conference on Computers Helping People with Special Needs, ICCHP 2002, held in Linz, Austria in July 2002. The 155 revised papers presented were carefully reviewed and selected. The papers evaluate how various fields in computer science can contribute to helping people with various kinds of disabilities. Among the technical fields evaluated are information systems, information society, computer-assisted education, human-computer interaction, interface design, virtual reality, Internet applications, mobile computing, assistive technology, communication technology, multimedia, display technology, haptic computing, audio interfaces, and societal and administrative issues.

书籍目录

Invitde Contributions  
Universal Access to Information Society Technologies: Opportunities for Peole with Disabilities  
Computer and Inclusive Education  
Virtual Reality  
Hearing Impairde People-Computers and Communication  
Computers for the Development of Young Disablde Children  
Mobility Impaired People-Individual Authonomy  
Typing-Alternative and Augmentative Communication  
Accessible Digital Media  
Electronic and Virtual Libraries: Access for Print Disabled People  
Blind and Visually Impaired Impaired People-  
Mobility and HCI  
Access to Mathematics by Blind Students  
Blind People-Tactile Graphics, Displays, and HCI  
hAPTIC and Audio Interfaces and Virtual Reality for Blind and Partially Sighted People  
Blind People-Human Computer Interaction  
Blind People- Braille Printing  
People with Disabilites-Daily living  
Access Music  
People with Disabilities-Political, Legal, and Individual Aspects  
IT-Certficiates to Foster the Vocational Intergration of People with Disabilities  
ECDLPD  
Studying and Academic Mobility-IT Support for People with Disabilities  
International Collaboration to Improve Assistive Technology Outcomes  
Author Index
