

<<模型驱动的工程语言与系统>>

图书基本信息

书名：<<模型驱动的工程语言与系统>>

13位ISBN编号：9783540457725

10位ISBN编号：3540457720

出版时间：2006-12

出版时间：湖南文艺出版社

作者：Harel, David 编

页数：798

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<模型驱动的工程语言与系统>>

内容概要

This book constitutes the refereed proceedings of the 9th International Conference on Model Driven Engineering Languages and Systems (formerly the UML series of conferences), MoDELS 2006, held in Genova, Italy, in October 2006. The 51 revised full papers and 2 invited papers presented were carefully reviewed and selected from 178 initial submissions. The papers are organized in topical sections on evaluating UML, MDA in software development, concrete syntax, applying UML to interaction and coordination, aspects, model integration, formal semantics of UML, security, model transformation tools and implementation, analyzing dynamic models, specifying transformations, MOF, bridging models, risk, trust and dependability, tool environments, OCL, roundtrip engineering, real time and embedded systems, as well as workshops, tutorials and panels.

<<模型驱动的工程语言与系统>>

书籍目录

Keynote 1 A Software Modeling Odyssey: Designing Evolutionary Architecture-Centric Real-Time Systems and Product Lines
Evaluating UML Uses and Abuses of the Stereotype Mechanism in UML 1.x and 2.0
An Experimental Investigation of UML Modeling Conventions
Improving the Definition of UMLMDA in Software Development
Adopting Model Driven Software Development in Industry A Case Study at Two Companies
Use Case Driven Iterative Development: Hurdles and Solutions
Model-Driven Development with SDL Process, Tools, and Experiences
Concrete Syntax Model-Driven Analysis and Synthesis of Concrete Syntax
Correctly Defined Concrete Syntax for Visual Modeling Languages
Applying UML to Interaction and Coordination
Compositional MDA
CUP 2.0: High-Level Modeling of Context-Sensitive Interactive Applications
Aspects Domain Models Are NOT Aspect Free
A Slice of MDE with AOP: Transforming High-Level Business Rules to Aspects
Model Intergration
Package Merge in UML 2: Practice vs. Theory?
Detecting and Resolving Model Inconsistencies Using Transformation Dependency Analysis
Merging Models with the Epsilon Merging Language (EML)
Formal Semantics of UML Mappings, Maps and Tables: Towards Formal Semantics for Associations in UML2
Semantic Variations Among UML StateMachines
Facilitating the Definition of General Constraints in UML.....Security
Model Transformation Tolls and Implementation
Analyzing Dynamic Models
Specifying Transformations
MOF
Keynote2
Bridging Models
Risk, Trust and Dependability
Tool Environments
OCL
Roundtrip Engineering
Real Time and Embedded Systems
Workshops, Tutorials and Panels
Author Index
