<<名人设计 Who ' s Who in D>>

内容概要

The third edition of the international compendium of the design scene " The Leading Designers of the World " is published now. In the new edition of the " Who ' s Who in Design " are presented in detail those leading personalities, teams, offices and enterprises, who have taken up an outstanding role in the world of design through their works - setting trends and creating styles - and who are about to set new accents. It is therefore an excellent orientation guide and an indispensable work of reference for any businessmen, marketing experts, agencies, journalists and young talents, interested in design.
