## <<200 TIPS FOR HOUSE D>>

### 内容概要

With house designs constantly evolving, it is hard to keep up with current trends. As new materials and technologies are introduced, the way we build our homes is also being reshaped. Whether you are looking for a new urban home, mountain retreat, need some guidance in the remodeling of a home, want to introduce some ecological aspects to your dwelling or desperately want a home, but have a limited budget, you are bound to find what you are looking for in 200 TIPS FOR HOUSE DESIGN. Featuring full-color photographs, floor plans, this book features tips for building with wood, glass, stone, steel, as well as plenty of ideas of sea house, mountain house, urban and country homes, homes on distinctive lands, ecological house, remodels, big ideas for small houses and limited budgets and even private residential complexes and the houses of the future. A 20-page section at the end focuses on specific tips for kitchens, bathrooms, bedrooms, storage and many other interior decoration ideas.
