

<<医学免疫学>>

图书基本信息

书名：<<医学免疫学>>

13位ISBN编号：9787030097644

10位ISBN编号：7030097645

出版时间：2002-2

出版时间：科学出版社

作者：帕斯劳 编

<<医学免疫学>>

内容概要

本书是一本历史悠久的免疫学教科书，自问世以来为读者和专业媒体所赞誉。

《临床和实验变态反应》对本书的评价为“ highly recommended for students and practitioners since difficult concepts are very clearly explained and the style of presentation is user-friendly. ” 本书的第10版由来自美国、加拿大、澳大利亚的64位教授编写，美国加州大学的Tristram G.Parslow等四位教授担任主编，颇具权威性。

全书将免疫学的基础概念和病原学、诊断及治疗结合起来，系统阐述了因免疫缺陷、超敏反应及自身免疫所致的临床疾病，简述了感染的反应过程。

本书有较多的图表和模式图，专为学生和住院医师设计，具有语言简精，可读性强的特点。

书籍目录

Authors Preface SECTION I. BASIC IMMUNOLOGY 1. Fundamentals of Blood Cell Biology 2. Innate Immunity 3. Lymphocytes & Lymphoid Tissues 4. The Immune Response 5. Immunogens, Antigen, & Vaccines 6. Antigen Presentation & the Major Histocompatibility Complex 7. Immunoglobulins & Immunoglobulin Genes 8. B-Cell Development & the Humoral Immune Response 9. T Lymphocytes & Natural Killer Cells 10. Cytokines 11. Chemokines 12. Complement & Kinin 13. Inflammation 14. The Mucosal Immune System SECTION II. IMMUNOLOGIC LABORATORY TESTS 15. Clinical Laboratory Methods for Detection of Antigens & Antibodies 16. Clinical Laboratory Methods for Detection of Cellular Immunity 17. Blood Banking & Immunohematology 18. Molecular Genetic Techniques for Clinical Analysis of the Immune System 19. Histocompatibility Testing 20. Laboratory Evaluation of Immune Competence SECTION III. CLINICAL IMMUNOLOGY 21. Antibody (B-Cell) Immunodeficiency Disorders 22. T-Cell Immunodeficiency Disorders 23. Combined Antibody (B-Cell) & Cellular (T-Cell) Immunodeficiency Disorders 24. Phagocytic Dysfunction Diseases 25. Complement Deficiencies 26. The Atopic Diseases 27. Anaphylaxis & Urticaria 28. Immune-Complex Allergic Diseases 29. Cell-Mediated Hypersensitivity Diseases 30. Drug Allergy 31. Rheumatic Diseases 32. Endocrine Diseases 33. Hematologic Diseases 34. Inflammatory Vasculitides 35. Gastrointestinal, Hepatobiliary, & Oro-dental Diseases 36. Renal Disease 37. Dermatologic Diseases 38. Neurologic Diseases 39. Eye diseases 40. Respiratory Diseases 41. Reproduction & the Immune System 42. Mechanisms of Tumor Immunology 43. Neoplasms of the Immune System 44. Bacterial Diseases 45. Viral Infections 46. AIDS & Other Virus Infections of the Immune System 47. Fungal Diseases 48. Parasitic Diseases 49. Spirochetal Diseases: Syphilis & Lyme Disease SECTION IV. IMMUNOLOGIC THERAPY 50. Immunization 51. Allergy Desensitization 52. Clinical Transplantation 53. Immunosuppressive, Anti-inflammatory, & Immunomodulatory Therapy Appendix The CD Classification of Hematopoietic Cell Surface Markers Index
