

<<土木工程英语>>

图书基本信息

书名：<<土木工程英语>>

13位ISBN编号：9787030229489

10位ISBN编号：7030229487

出版时间：2009-1

出版时间：科学出版社

作者：张倩 主编

页数：197

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<土木工程英语>>

内容概要

本书是根据2004年8月颁布的《大学英语课程教学要求（教学大纲）》（试行）的规定编写的。本书选材涉及工程力学、钢筋混凝土结构、钢结构、结构抗震、土质学和土力学、工程岩土学、桥梁工程、路面工程、路基工程、道路勘测设计、工程经济与管理等学科，共有22个单元，每个单元均由课文（Text）、注解（Notes）、生词（New Words）、词组（Phrases and Expressions）、练习（Exercises）和阅读材料（Reading Material）组成。

本书可作为高等学校土木工程类专业英语教材，也可作为土木工程专业技术人员提高专业英语水平的参考读物。

书籍目录

Unit 1 Text Civil Engineering Reading Material Skyscraper
Unit 2 Text Analysis of Plane Structures Reading Material Design of Beams
Unit 3 Text Normal Stress in Beams Reading Material Structural Analysis
Unit 4 Text Shear Stresses in Beams Reading Material Structural Engineering
Unit 5 Text Load Reading Material Combinations of Loads
Unit 6 Text Basic Behavior Assumptions for Concrete Members Reading Material Reinforced Concrete
Unit 7 Text Axially Loaded Short Columns Reading Material The Elastic Bending Moment Diagram of Concrete Beams
Unit 8 Text The Nature of Soils Reading Material Ultimate Bearing Capacity
Unit 9 Text Foundation Settlement and Soil Compression. Reading Material Permeability
Unit 10 Text Shear Strength of Soil Reading Material Contaminated Land
Unit 11 Text Rankine's Theory of Earth Pressure Reading Material Geotextile-Reinforced Soil Walls
Unit 12 Text Prestressed Concrete Bridges Reading Material Preliminary Design of Cabled Stayed Bridges
Unit 13 Text Design of Suspension Bridges Reading Material Steel Bridge Construction
Unit 14 Text Welding and Types of Welds Reading Material Cracks in Flexural Members
Unit 15 Text Roadway Alignment Reading Material Shoulders
Unit 16 Text Flexible Pavement Design Reading Material Pavement Material Characterization
Unit 17 Text Joints of Concrete Pavements Reading Material Pavement Drainage
Unit 18 Text Composite Columns Reading Material Prestressed Concrete
Unit 19 Text General Effects of Earthquakes Reading Material Seismic Resistance of Ordinary Construction
Unit 20 Text Construction Project Management Reading Material Engineering Contracts
Unit 21 Text Approaches and Types of Estimate for Direct Cost Estimation Reading Material Techniques for Construction Cost Estimation
Unit 22 Text Rock Mass Classification Reading Material The Norwegian Tunneling Method References
