## <<实用医护英语口语>>

### 前言

在世界进入政治多极化、经济全球化、文化多元化的21世纪之际，国际交流正在迅速增长。在这一背景之下，外语教学，特别是英语教学，再次受到全国上下空前未有的关注。

加强实用性英语教学，提高英语实用能力，已成为英语教学新一轮改革的重要课题。

《实用医护英语口语》就是为适应这一形势，在加大改革力度、转变教学观念的思想指导下编写的。

《实用医护英语口语》的最大特点是实用性。

全书的三个主要单元以医护人员最需要使用英语口语的问诊、体检和病例讨论为主线。

全书25课，每课设听力、对话、医护要点和问题讨论，内容紧扣疾病与健康、医院和保健等与医护人员密切相关的主题。

本书从选材到练习安排突出“说”的能力：要求本书使用者在精听段落的基础上练习说；在模仿医生和病人对话或医生之间对话中练习说；在表达医护基本内容和常识时练习说；在讨论各种有趣的医学话题时练习说。

我们相信，在本书提供的听说材料的基础上，使用者完全可以把已有的医学和英语知识结合起来，走出“开不了口”的困境。

《实用医护英语口语》的主要读者对象是需要获取医学英语听、说能力的医护人员、在校学生，以及其他对医学英语听、说有兴趣者。

本书可作教材供课堂教学使用，也可用于自学。

本教材配有录音带和MP3两种载体形式供使用者选择，方便在不同教学环境中师生的使用。

编写实用性的教材，是新的尝试，也是极有意义的挑战。

由于编者在英语和医学两方面的知识水平都有限，书中一定有诸多不妥和疏漏，欢迎使用者和同行多提宝贵意见。
