<<丁亥贺岁>>

编辑推荐

Among all festivals in the year, the Spring Festival has the merriest atmosphere. On this day, people in ancient times held morning celebrations to greet gods, worship ancestors, divine the weather, pray for good harvests and participate in a variety of recreational activities. As time passed, the length of the festivities extended both forward and backward, and the celebration became richer and richer in content. Finally, it became a traditional festival containing the innermost aspects of Chinese culture.
