内容概要

《建筑类专业英语》每册16个单元，每个单元一篇正课文（TEXT），两篇副课文（Reading Material A & B），每个单元平均2000个词，三册48个单元，总共约有十万词，相当于原版书三百多页。

要培养较强的阅读能力，读十万词的文献，是起码的要求。

如果专业课教师在第六和第七学期，在学生通过学习本教材已经掌握了数百个专业科技词汇的基础上，配合专业课程的学习，再指定学生看一部分相应的专业英语科技文献，那将会既促进专业课的学习，又提高英语阅读能力，实为两得之举。

本教材为第二册“给水排水与环境保护”，不仅适用于在校学生，对于有志提高专业英语阅读能力的建筑行业广大在职工程技术人员，也是一套适用的自学教材。

书籍目录

UNIT ONE Text Historical Development of Municipal Water Systems in the United States Reading Material A Groundwater and Surface-water Supplies Reading Material B Water Transmission UNIT TWO Text Measurement of Water Quality Reading Material A Biochemical Oxygen Demand Reading Material B Bacteriological Measurements UNIT THREE Text Water Processing Reading Material A Methods for Removal of Wastes and Odours Reading Material B Magnetic Water Treatment UNIT FOUR Text Filtration Reading Material A Rapid Gravity Filtration Reading Material B Backwashing UNIT FIVE Text Collection of Wastewater Reading Material A Storm Sewer System Reading Material B Sanitary Sewer System UNIT SIX Text Composition of Wastewater Reading Material A Primary Treatment Reading Material B Secondary Treatment UNIT SEVEN Text Biological Treatment System Reading Material A Biological Towers Reading Material B Biological Aeration UNIT EIGHT Text Characteristics of the Sludges Reading Material A Sludge Stabilization Reading Material B Sludge Dewatering UNIT NINE Text Pumps and Pumping Stations Reading Material A Choice of Pumps Reading Material B Pump Station Buildings UNIT TEN Text Classification of Water Pollutants Reading Material A Regulations Concerning Water Pollution Reading Material B Sources of Water Pollution UNIT ELEVEN Text Potential Impact of Air Contaminants on Water Quality Reading Material A The Need for Water Quality Studies Reading Material B Water Quality Standards UNIT TWELVE Text Hazardous Waste Reading Material A Treatment of Hazardous Waste Reading Material B Radioactive Waste Management UNIT THIRTEEN Text Air Pollution Reading Material A Meteorological Effects and Changes Reading Material B Causes of Air Pollution UNIT FOURTEEN Text Health Effects of Noise Reading Material A Measurement and Control of Noise Reading Material B Noise Control UNIT FIFTEEN Text Resource Recovery Reading Material A Disposal of Solid Waste-Landfilling Reading Material B Solid Wastes UNIT SIXTEEN Text Removal of Organic Vapour from Effluent Gases Reading Material A Managing Climatic Change Reading Material B Pollution Prevention or Cure Appendix Vocabulary Appendix Translation for Reference Appendix Key to Exercises
