<<MCSA学习指南(Managing a >>

内容概要

本书以MCSA 认证考试为目标，内容涵盖了MCSA 核心考试70-218 的所有考试要点，尽可能详细地介绍了MCSA 应试者和Windows 2000高级用户所应掌握的所有技能。

本书在介绍考试要点时针对每个考试目标，使用了大量的插图、表格、试验、测试等，使读者在牢固掌握知识点的同时，轻松地获得丰富的实践经验。

本书由具有丰富MCSA 培训经验的专家编写，是参加MCSA 考试人员必备考试教材。

本书也是一本学习使用和管理Windows 2000的很好的参考书，还可以作为一些疑难问题的速查手册。

书籍目录

Part Configuring, Administering, and Troubleshooting the Network Infrastructure Configuring and Troubleshooting TCP/IP Configure TCP/IP on Servers and Clients Hardware Addresses IP Address Exercise 1-1 : Configuring TCP/IP on Servers Converting Between Binary and Decimal Determine Valid IP Addresses Subnetting Finding Valid IP Addresses Broadcasting Configure Routing Building a Windows 2000 Router How Routing Works Viewing the Routing Table Exercise 1-2 : Viewing a Computer's Routing Table Configuring Routing Tables How Routing Conflicts Are Handled Managing the Routing Table Troubleshoot TCP/IP and Routing Troubleshooting with IPCONFIG Exercise 1-3 : Checking an IP Configuration Troubleshooting with PING Troubleshooting with ARP Troubleshooting with Tracert Exercise 1-4 : Tracing a Route Troubleshooting with PATHPING Two-Minute Drill Q&A Self Test Lab Question Self Test Answers Lab Answer 2 Implementing and Troubleshooting Name Resolution Understand Name Resolution Name Resolution Resources Exercise 2-1 : Check Out Your Computer Name Configure NetBIOS Name Resolution NetBIOS Names NetBIOS Service Identifiers NetBIOS Name Resolution Sequences Creating an LMHOSTS File Exercise 2-2 : Peek at Some NetBIOS Names Configure and Implement WINS Installing a WINS Server Configuring WINS Clients Managing a WINS Database Exercise 2-3 : Viewing Records in a WINS Database Supporting Non-WINS Clients Setting Up Multiple WINS Servers Troubleshoot NetBIOS Name Resolution Troubleshooting WINS Servers Exercise 2-4 : Viewing WINS Server Statistics Troubleshooting WINS Clients Two-Minute Drill Q&A Self Test Lab Question Self Test Answers Lab Answer 3 Configuring, Managing, and Troubleshooting DNS 4 Configuring and Troubleshooting DhcpPart Active Directory and Group Policy 5 Configuring and Implementing Active Directory 6 Creating and Implementing Group Policies 7 Sharing and Publishing Folders and Printers 8 Managing Software with Group Policy 9 Managing and Troubleshooting Active DirectoryPart Creating,Configuring,Managing,Securing,and Troubleshooting File,Print,and Web Resources 10 Managing Data Storage 11 Configuring Internet Information Services(IIS) 12 Implementing and Analyzing SecurityPart Configuring,Securing,and Troubleshooting Remote Access 13 Configuring Client Computer Remote Access Properties 14 Troubleshooting Remote Access 15 Implementing Terminal Services for Remote Access 16 Configuring Network Address Translation and Internet Connection SharingPart Managing,Securing,and Troubleshooting Servers and Client Computers 17 Installing and Configuring Server 18 Troubleshooting Startup Problems 19 Monitoring and Troubleshooting Server Health and PerformanceAppendixIndex
