## 内容概要

《全国高等学校配套教材：病理生理学复习与自测（英文版）》为全国高等学校配套教材之一，介绍Introduction of Pathophysiology and Conspectus of diseases, Introduction of Pathophysiology, Conspectus of Disease, Gene Mutation and Related Diseases, Abnormal Cellular Signal Transduction and Related Diseases, Abnormality of Cellular Proliferation and Differentiation and Related Diseases等等。

书籍目录

Chapter 1 Introduction of Pathophysiology and Conspectus of diseases Section One Introduction of Pathophysiology Section Two Conspectus of Disease  
Chapter 2 Gene Mutation and Related Diseases  
Chapter 3 Abnormal Cellular Signal Transduction and Related Diseases  
Chapter 4 Abnormality of Cellular Proliferation and Differentiation and Related Diseases  
Chapter 5 Abnormal Cellular Apoptosis and Related Diseases  
Chapter 6 Disorders of Water and Electrolyte Metabolism Section One Water and Sodium Balance and Imbalance  
Section Two Balance and Imbalance of Potassium, Magnesium, Calcium and Phosphorus  
Chapter 7 Acid-base Balance and imbalance  
Chapter 8 Hypoxia  
Chapter 9 Fever  
Chapter 10 Stress  
Chapter 11 Coagulation-Anticoagulation Balance and Imbalance  
Chapter 12 Shock  
Chapter 13 Ischemia-Reperfusion Injury  
Chapter 14 Tumor  
Chapter 15 Heart Failure  
Chapter 16 Respiratory Failure  
Chapter 17 Hepatic Failure  
Chapter 18 Renal Failure  
Chapter 19 Brain Dysfunction  
Chapter 20 Multiple Organ Dysfunction Syndrome
