<<组织学实习指导>>

内容概要

近年来国内许多医科院校陆续招收印度及其它国家的自费留学生.对他们是完全用英语进行教学的。组织学与胚胎学教学，使用的教科书多为在英美或印度出版的原版教科书，但实习指导就必须国内解决了。多数医学院校目前使用的是科学出版社2003年出版的全英文组胚实习指导。该书原是供七年制学生选用的。在对留学生的教学过程中感到，该书内容过于繁琐，文字叙述冗长，图也不够丰富，所以我们拟编了这本较为实用的组织学实习指导。

书籍目录

Chapter 1 Preface Appendix: The structures and operation of microscope
 Chapter 2 Epithelial Tissue 1. Simple squamous epithelium (endothelium, TS of medium-sized artery and vein) 2. Simple columnar epithelium (gall bladder) 3. Simple columnar epithelium (jejunum) 4. Pseudostratified ciliated columnar epithelium (trachea, TS) 5. Stratified squamous epithelium (esophagus, TS) 6. Transitional epithelium (urinary bladder) 7. Mixed gland (submandibular gland)
 Chapter 3 Connective Tissue 1. Loose connective tissue (rat mesentery) 2. Plasma cells (trachea, TS) 3. Dense irregular connective tissue and adipose tissue (skin of finger) 4. Dense regular connective tissue (tendon, LS & TS) 5. Reticular tissue (lymph node)
 Chapter 4 Blood Blood smear
 Chapter 5 Cartilage and Bone 1. Hyaline cartilage (trachea, TS) 2. Fibrocartilage (Intervertebral disk) 3. Elastic cartilage (auricle) 4. Compact bone (Diaphysis of long bone, TS & LS) 5. The development of long bone (LS of decalcified fetal finger)
 Chapter 6 Muscle Tissue 1. Skeletal muscle (limb, TS & LS) 2. Skeletal muscle (tongue) 3. Cardiac muscle (LS of the heart wall) 4. Cardiac muscle (LS of the heart wall) 5. Smooth muscle (jejunum)
 Chapter 7 Nervous Tissue 1. Neuron (spinal cord, TS) 2. Neurofibril (spinal cord, TS) 3. Astrocyte (cerebrum) 4. Nerve and nerve fiber (sciatic nerve, TS & LS) 5. Motor end-plate (intercostal muscle or orbicularis oculi) 6. Meissner's corpuscle & Pacinian corpuscle (palmar skin of finger) 7. Meissner's corpuscle (palmar skin of finger)
 Chapter 8 Nervous System 1. Cerebrum (cerebral hemisphere) 2. Cerebellum 3. Spinal Cord (TS) 4. Spinal ganglion
 Chapter 9 Eyes and Ears 1. Eyeballs (sagittal section) 2. Eyelid (sagittal section) 3. Inner ear (guinea pig)
 Chapter 10 Circulatory System 1. Heart (LS) 2. Large arteries (TS) 3. Large arteries (TS) 4. Medium-sized arteries and veins (TS) 5. Large veins (TS)
 Chapter 11 Skin 1. Thick skin (or hairless skin, from finger or toe) 2. Scalp (or hairy skin) 3. Thin skin (or hairy skin, from the back or the abdomen)
 Chapter 12 Immune System 1. Thymus (infant) 2. Thymus (adult) 3. Lymph node 4. Spleen 5. Palatine tonsil
 Chapter 13 Endocrine System 1. Thyroid gland 2. Parafollicular cells of thyroid gland 3. Parathyroid gland 4. Adrenal gland 5. Hypophysis (Sagittal Section)
 Chapter 14 Digestive Tract 1. Tongue (perpendicular section) 2. Esophagus (TS) 3. Stomach (the body or fundus) 4. Stomach (pylorus) 5. Duodenum (TS or LS) 6. Jejunum (TS or LS) 7. Ileum (TS or LS) 8. Colon (TS or LS) 9. Appendix (TS)
 Chapter 15 Digestive glands 1. Parotid gland 2. Submandibular gland 3. Pancreas 4. Pig liver 5. Human liver 6. Kupffer cells (rat liver) 7. Glycogen of hepatocytes 8. Bile canaliculi 9. Blood vessels of the liver 10. Gall bladder
 Chapter 16 Respiratory System 1. Olfactory region of the nose 2. Trachea (TS) 3. Lung 4. Elastic fibers in the lung
 Chapter 17 Urinary System 1. Kidney 2. Renal blood vessels 3. Urinary bladder
 Chapter 18 Male Reproductive System 1. Testis and epididymis 2. Semen smear 3. Prostate (sectioned through prostatic urethra)
 Chapter 19 Female Reproductive System 1. Ovary (cat or rabbit) 2. Oviduct (TS) 3. Uterus (proliferative phase) 4. Mammary glands (quiescent stage)
