<<新编英语教程（下册）>>

内容概要

《新编英语教程》（上、下册）是在高等教育改革发展的新形势下，借鉴以往英语初级教程的编写经验，针对高等教育自学考试的新目标和新要求而编写的。本教程是北京市高等教育自学考试日语专业二外英语的指定教材，同时面向参加各类英语初级、中级培训的学生。

本教程选取地道的原文材料，内容新颖、富有时代气息。每个单元由对话、课文、单词表、注释、语法、语音、练习等几个部分组成。

考虑到广大高等教育自学考试学习者在学习目的、学习要求、学习时间和学习形式上的特殊性，教材编写力求在以下几个方面为自学者提供全方位的学习支持：语言知识的系统性和完整性；能力和素质的共同提高；扎实基础和广泛阅读协调统一；梯度分明，以形成性评估促进自学能力的培养；注意对目的语国家文化意识的培养。

书籍目录

Unit 21 Dialogue: What Is Your Favorite Subject? Text: Fashion Blues Grammar 1.形容词和副词的比较级和最高级 2.主语从句Unit 22 Dialogue: Have You Ever Met Him? Text: Perfect Match Grammar 1.现在完成时 2.表语从句 3.定语从句Unit 23 Dialogue: It Was Raining That Day Text: Tigers in Danger Grammar 1.过去进行时 2.宾语从句Unit 24 Dialogue: A Great Workout Text: Olympic Games Grammar 1.被动语态 2.物主代词的绝对形式Unit 25 Dialogue: A Job Interview Text: Love of Tag Grammar 1.现在完成进行时 2.同位语从句Unit 26 Dialogue: Advice for a Shy Guy Text: Invest Yourself in Someone's Life Grammar 1.直接引语和间接引语 2.现在分词和过去分词Unit 27 Dialogue: Congratulations Text: The Nile River Grammar 1.过去完成时 2.地理名词中的冠词 3.感叹句Unit 28 Dialogue: A Neighbor's Advice Text: Sisters Grammar 1.it用法小结 2.强调句型Unit 29 Dialogue: Problems with a Client Text: The British Bobby Grammar 1.主谓一致 2.自身代词和相互代词 3.构词法 Unit 30 Dialogue: Waiting for a Friend Text: The Female Mosquito Grammar 1.虚拟语气 2.几种标点符号的用法Unit 31 Text: The Power of a Name Grammar 倒装Unit 32 Text: Touch Grammar 1.省略与替代 2.介词用法小结Unit 33Unit 34Unit 35词汇总表题型举例

章节摘录

Before the building of a dam at Aswan , Egypt experienced annual floods from the Nile River which deposited 4 million tons of nutrient-rich sediment which enabled agricultural production. This process began millions of years before Egyptian civilization began in the Nile valley and continued until the first dam at Aswan was built in 1889. This dam was insufficient to hold back the water of the Nile and was subsequently raised in 1912 and 1933. In 1946 , the true danger was revealed when the water in the reservoir peaked near the top of the dam.

In 1952 , the interim Revolutionary Council government of Egypt decided to build a High Dam at Aswan , about four miles upstream of the old dam. In 1954 , Egypt requested loans from the World Bank to help pay for the cost of the dam (which eventually added up to US\$1 billion) . After years of construction , the reservoir was completed in 1970. The lake holds 137 million acre-feet of water (169 billion cubic meters) . About 17 percent of the lake is in Sudan and the two countries have an agreement for distribution of the water. The dam benefits Egypt by controlling the annual floods on the Nile River and prevents the damage which used to occur along the floodplain. The Aswan High Dam provides about a half of Egypt's power supply and has improved navigation along the river by keeping the water flow consistent. There are several problems associated with the dam as well , Seepage and evaporation accounts for a loss of about 12-14% of the annual input into the reservoir. The sediments of the Nile River , as with all river and dam systems , have been filling the reservoir and thus decreasing its storage capacity. This has also resulted in problems downstream.
