## <<医用高职英语>>

### 内容概要

《高职高专行业英语系列教材：医用高职英语》伴随着经济发展和社会变化，中国高等职业教育走过了一条从学术教育逐步过渡到职业技术教育的路程。

最初作为大学学术教育（本科和专科）的一部分，高等专科学校和高等职业技术学院为国家和社会培养出大批知识分子和技术人才；而全球化的今天，我国的高等职业教育也提出新的要求和培养目标，那就是大力培养适合“世界工厂”和中国产业升级所需求的技术工人和服务人员。

与此相对应，教育部对高等职业教育，尤其是万众瞩目的基础英语教育的要求和培养目标做出了调整，即提高英语基础教育的同时，加大对职业英语和行业英语教育的投入；要求全国高等职业院校在课时的安排和教学方向上适当对职业英语和行业英语方面倾斜，并加强校企合作。

书籍目录

Module 1 History of Medicine Warm up Listening Speaking Reading  
Module 2 Medical Career Warm up Listening Speaking Reading  
Module 3 Medical Elite Warm up Listening Speaking Reading  
Module 4 Human Body Warm up Listening Speaking Reading  
Module 5 On Diseases Warm up Listening Speaking Reading  
Module 6 Food and Health Warm up Listening Speaking Reading  
Module 7 Exercise and Health Warm up Listening Speaking Reading  
Module 8 A Hospital Warm up Listening Speaking Reading

## 章节摘录

the symptoms to reinforce his judgment. Western medicine uses chemical-based medicine and surgery for medication , while Chinese medicine uses Chinese herbal medicine and acupuncture. For a patient , which is more preferable? It depends. Usually a Chinese doctor will recommend western medicine for intensive treatment , and Chinese medicine for recovery. Chinese medicine is more effective for some functional disease , the cause of which is difficult to make clear. What will happen if Chinese medicine is indeed abandoned? I have no idea of it. For the patients suffering terminal disease , Chinese medicine is their last resort. It can not only alleviate pain but also offer an option of different treatment. As a simple example , you see a western doctor if you have acute appendicitis , but you exercise or take Chinese herbs to keep your body healthy enough to prevent appendicitis , or to recover more quickly from the surgery. Very few practitioners of western medicine in China reject traditional Chinese medicine , and most doctors in China will use some elements of Chinese medicine in their own practice.
