内容概要

目前,我国的研究生教育蓬勃发展,规模空前。随着社会信息化和经济全球化趋势的发展,国际学术交流活动的日益频繁,因此社会对研究生的英语实际应用能力也提出了更高的要求。为了适应这一形势,我们组织河北工业大学、河北师范大学、河北大学及天津外国语大学等高校长期从事研究生英语教学的骨干教师,结合编者所在院校非英语专业研究生实际英语学习情况,编写了《研究生英语综合阅读教程》,于2008年9月由南开大学出版社出版。该教材主要突出时代性和实用性,旨在通过丰富多彩的内容及各种灵活的教学活动全面提高学生综合运用英语的能力。

章节摘录

[5] I remembered, too, the feeling of anti-climax that had followed hard upon the euphoria of my own graduation. After all the celebration and congratulations had ebbed, I'd begun to consider what it was that I held in my hand, what I had accomplished, what all those years of study meant. It would be decades before I sorted it all out, but by commencement evening I had begun to glimpse the fearsome hollow of unlimited possibility, the abyss of boundless freedom. [6] Until that moment, life had been carefully scripted. I knew what was expected of me year after year. what I expected of myself. But now I was on my own, free to enter the job market or apply to graduate school, to travel or write, to marry and start a family. Or perhaps I would discover some wholly new and transformative path not yet pursued. [7] Then, too, I was free simply to stagnate in indecision. After all those years of study I felt oddly unprepared for life. Within days of my release from academia I yearned anew for its comfortable routines. Where would self-esteem and accomplishment come from without the annual rites and rewards of the school year ?

I was not prepared to be set adrift upon an indifferent sea of infinite potential.
