<<新疆大地>>

内容概要

Xinjiang Uygur Autonomous Region is the largest province in western areas of China and covers an area of 1.6 million square kilometers. Zhao Cheng'an, a photographer and winner of the Golden Image Prize of Chinese Photographic Art, devoted his whole life to his photographic career of Xinjiang. The album Land of Xinjiang demonstrates almost the all he achieved in his dozen years of photographic career of the region.

The book publishes some 1,000 of his pictures in four parts: "Landscape in the Mountain," "Water for Life," "The Fascinating Desert" and "History of the Silk Road" and illustrates bold, constrained and profound Xinjiang in different seasons from different angles of view. Also this album includes great amounts of photos taken on planes, making it more attractive. The unique and individual visual angle and excellent professional skills of the author make the album of a higher value for photographic artistic appreciation. Also the vivid and interesting description by the author of his experiences makes it more readable.

作者简介

赵承安先生，生于1940年9月，祖籍陕西省安康县，当他在44年前刚来到新疆的时候，还是个十七八岁的愣头小伙，对“西天”的这块土地也只是从历史书籍描述中、从《西游记》小说形象的想象中只不过是神秘模糊的概念而已，到了现实环境，才感到新疆安全不是想象的那么回事。

随着岁月的推移，赵承安逐渐对新疆产生了浓厚的深情，当他在用照相机系列拍摄新疆大地的时候，更觉一种激动和震撼，这种思想，奠定了用他用摄影语言倾情新疆的基础，把拍摄新疆大地“当做人生最幸福的时刻”。

1989年，赵承安有幸从事系列性的新疆地质、地貌，和地质家交朋友，并阅读有关“普通地质学”等著作后茅塞顿开，开始认识到风光摄影艺术还有更加广阔的天地，从而撑开思维，深层次的去表现新疆的山河江川、大漠原野。

现在，年过花甲的赵承安，虽然已经退休，但在新疆大地的摄影上，仍充满着创作活力和旺盛精力，每个都有新的作品和画册问世，并决心向更高的水平努力，用他自己的话说：“那山顶，也许我永远也爬不到，但只要低头奋进，距离越来越近些也是好事。”
