## 章节摘录

版权页 : S1:I would like to get the lonely android. S2:Why? He is far too large for you to make him a friend. S1:My reason is that I like his hobbies. In my opinion, those who like playing the guitar and singing are the best companions in the world. S2: Really? I believe that a bird-like android would be more fun. I like to hear birds singing and would love to have my own pet an-droid that could give me all the pleasure and none of the hardwork. S1:The advantage of my lonely android would be that he could do all the housework and cooking as well as play the guitar and sing. S2:The disadvantage of your android would be that he might break the furniture. He is too big to be useful in a house. S1:I don't like your idea of buying the bird-like, robot. Of course it would be small, but it just keeps singing the same song over and over again. And it cannot play football. S2:I didn't think of that! OK. Let's make our decision. I think after all I would like to buy the lonely android too. S1: Good. That's settled then! Our group has chosen the lonely robot because it can do many things to help us and it can play football too.
