<<TCP/IP及其相关协议>>

内容概要

《TCP/IP及其相关协议》内容简介：his third edition of TCP/IP reflects changes that have occurred in this protocol suite during the past few years, as well as changes that have occurred in other parts of the industry that have a bearing on TCP/IP. The changes deal with (a) the release of a new verison of IP, called IPv6, (b) the growth of Frame Relay networks and the need torun on Frame Relay systems, and (c) the entry of ATM into the data communications area, and the potential need to inter work IP with ATM.
