

<<宇宙学的物理基础>>

图书基本信息

书名：<<宇宙学的物理基础>>

13位ISBN编号：9787506292740

10位ISBN编号：7506292742

出版时间：2008

出版公司：世界图书出版公司（北京公司）

作者：V. Mukhanov

页数：421

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## <<宇宙学的物理基础>>

### 内容概要

This book is meant to be neither encyclopedic nor a sourcebook for the most recent observational data. In fact, I avoid altogether the presentation of data; after all the data change very quickly and are easily accessible from numerous available monographs as well as on the Internet. Furthermore, I have intentionally restricted the discussion in this book to results that have a solid basis. I believe it is premature to present detailed mathematical consideration of controversial topics in a book on the foundations of cosmology and, therefore, such topics are covered only at a very elementary level.
