

图书基本信息

书名：<<DL/T 51952004 《水工隧洞设计规范》英文版>>

13位ISBN编号：9787508367231

10位ISBN编号：7508367235

出版时间：2008-4

出版时间：中国电力出版社

作者：中华人民共和国国家发展和改革委员会 编

页数：123

字数：102000

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

内容概要

《DL/T 51952004 英文版》为Specification for Design “水工隧洞设计规范（DL/T 5195-2004）（英文版）”。

《DL/T 51952004 英文版》由中国电力出版社编著。

书籍目录

Foreword
Explanatory Notes to the Wording of This Specification
1 Scope
2 Normative References
3 General
4 Terminology
5 Basic Data
6 Arrangement of Tunnel
7 Shape and Dimensions of Tunnel Section
8 Hydraulic Design
9 Basic Principles for Structural Design
10 Unlined and Bolt-Shotcrete Tunnels
11 Concrete and Reinforced Concrete Lining
12 Prestressed Concrete Lining
13 High-Pressure Branch Tunnels with Reinforced Concrete Lining
14 Design of Plugs
15 Grouting, Seepage Control and Water Drainage
16 Monitoring, Operation and Maintenance
Annex A (Normative) Engineering Geology Classification of Surrounding Rock
Annex B (Normative) Materials
Annex C (Informative) Head Loss Calculation for Hydraulic Tunnels
Annex D (Normative) Anti-Cavitation Design of High Velocity Hydraulic Tunnels
Annex E (Normative) Structure Safety Class of Hydraulic Tunnels
Annex F (Informative) Type and parameter of bolt-shotcrete support
Annex G (Normative) Calculation of Circular Pressure Tunnel Lining
Annex H (Informative) Reduction coefficient of external water pressure
Annex I (Normative) Lining Calculation for Circular Non-pressure Tunnels and Non-circular Tunnels
Annex J (Informative) Cracking of Concrete Lining and Its Preventive Measures
