<<高考英语听力标准训练>>

内容概要

《普通高中英语课程标准（实验）》指出：“语言技能是语言运用能力的重要组成部分。语言技能包括听、说、读、写四个方面的技能以及这四种技能的综合运用能力。”因此，听能训练和听能测试是中学英语教学和高考英语测试的重要组成部分。与此同时，各种高考听力备考用书鱼龙混杂，泥沙俱下。

为满足考生对高质量听力备考用书的需求，以免受到劣质图书的误导而步入歧途，从而在有限的时间内迅速提高听力理解能力，准确理解高考听力命题思路，熟练掌握高考听力应试技巧，我们特邀研究高考命题多年的著名高考英语听力测试专家、经验丰富的中学特级教师编写了“快捷英语”高考英语听力系列图书。

本系列图书如实反映了近年来听力测试研究的最新成果，充分体现了高考英语听力测试、命题的现状，指明了高考英语听力测试的发展方向。

章节摘录

Barbara, a night duty nurse in the local hospital, was driving home in stormy weather. The road was icy and she had to drive very carefully. Suddenly she noticed that the car ahead of her had lost control on a patch of ice. In a minute, the car moved wildly, rolled over and then crashed sideways into a telephone pole. It was an emergency, Barbara realized at once. She stopped her car and threw open the door. Thank goodness she was a nurse——she might be able to help. Without delay, she ran towards the crash site. It was worse than she feared. Two girls of high school age were in the car. One, on the passenger seat, had been killed instantly. The driver, however, was still breathing. She was unconscious though. Barbara quickly applied pressure to the wound in the teenagers head while her nurses eye took in the other injuries—— a broken leg, maybe two, along with probable internal bleeding. But if help came soon the girl might remain alive. Meanwhile, a truck had pulled up and the driver was calling for help on his cell phone. Soon Barbara heard the ambulance coming. A few moments later, rescue workers arrived, "Good job," one said as he examined the girls wounds. "Youve probably saved her life."
