章节摘录

After the official ban on motorcycles and electriccycles, bikes are set to return to the major urbanstreets of Guangzhou, according to the city planning bureau. "Bikes are especially necessary and convenient for the people with a lower income in the city, who can save a lot of money by riding a biketo work," said Mr. Chen. "So, bike lanes should be restored or built in the citys major streets." The local planning bureau is positive on Mr. Chens proposal. The city is planning to set up more parkingplaces for bikes in the residential buildings, especially those near the subway stations to ease the parking situation. The word "discovery" literally means, uncovering something thats hidden from view. But what really happens is a change in the viewer. The familiar offers comfort few can resist, and fewer still want to disturb. But as relatively recent inventions such as the telescope and microscope have taught us, theunknown has many layers. Every truth has geological strata, and you cant have orthodoxy without aheresy. The moment a newborn opens its eyes, discovery begins. I learned this with a laugh one morningafter delivering a calf. When it lifted up its fluffy head and locked at me, its eyes held the absolute bewilderment of the newly born. A moment before it had t.12e even black nowhere of the womb, and suddenly its world was full of color, movement and noise. Ive never seen anything so shocked to bealive.
