<<THE STRENGTH OF DEMO>>

内容概要

《民主的力量(中国共产党如何走向未来)(英文版)》由林良旗主编,沈传亮等人著,内容介绍: Some people believe that the CPC is not a party that embraces democracy. Is this true? Others believe that the people's congress system is not really democratic and the political consultation system is a "political farce". Is this also true? Some western countries accuse the CPC of monopolizing power through one Party so that governance lacks inclusiveness, representativeness and legitimacy, showing a lack of harmony with the wave of democracy worldwide. Is this correct? The 18th National Congress of the Communist Party of China, the largest governing party in any developing country, attracted the attention of the international community to the opinions and activities of the CPC, including issues concerning intra-Party and outer-Party democracy. The international community, with divergent views, tries to look into the direction of political system reform and democracy construction in the coming years through the 18th National Congress of the CPC. This book provides vivid stories, classical cases and reliable historical evidence to respond to the vague perceptions, misjudgements, concepts and comparisons of some people at home and abroad in regards to democracy within the CPC and China. It aims to tell readers that the history of the CPC (more than 90 years) is also a history of fighting for and building democracy. The planning and publication of the book was supported by Mr. Zeng Jianhui, former Minister of the State Council Information Office and chairman of the Foreign Affairs Committee of the 9th NPC, and Wang Chen, Minister of the State Council Information Office.
